Electrical Plan  
For 11 Western  
States Unveiled

WASHINGTON, June 26 (UPI)—Interior Secretary Stewart L. Udall yesterday unveiled a \$67 million dollar plan for linking federal, public and private electrical systems in 11 Western states and to provide a market for surplus power from Columbia river dams. Udall told a news conference that the plan calls for a federal investment of \$20 million dollars for construction of transmission lines by the Bonneville power administration. The plan includes a controversial proposal by the California power pool—consisting of Pacific Gas and Electric company, Southern California Edison company and San Diego Gas and Electric company—to build part of the system to connect federal power systems in the Pacific Northwest and the Pacific Southwest.

A report submitted to Congress by Udall said negotiations with the private companies and other non-federal agencies had resulted in the proposal to build four extra-high voltage lines to provide the interconnection.

The transmission lines would link the BPA system in the Pacific Northwest, the municipally owned Los Angeles system, the California power pool, the Central Valley project of California

Jaycees' Auto  
Safety Clinic  
Set Saturday

Twin Falls Junior Chamber of Commerce will hold a 10-point automobile safety check clinic from 10 a.m. until 5 p.m. Saturday and from noon to 5 p.m. Sunday in the 400 block of Second Avenue east.

The Jaycees, who are working in cooperation with state and city police, will check brakes, front lights, rear lights, steering, tires, exhaust system, glass, windshield wipers, rear view mirrors and the horn.

Each car that passes the 10-point check will have a safety sticker placed on the vehicle denoting that the vehicle has passed the test. Those vehicles that fail to pass will be issued a citation if a vehicle is not equipped with the safety items.

Police will not issue citations at the check point.

Melvin W. Quale, chairman of the clinic, urged everyone to attend the free inspection clinic.

Although seat belts will not be installed during the safety clinic this weekend, the Jaycees hope to hold a seat belt clinic later in the year.

There is not enough manpower available at this time to properly conduct both projects, Quale stated.

Plaque Dedicated  
To Brother by  
Robert Kennedy

BERLIN, June 26 (UPI)—Attorney General Robert F. Kennedy flew into West Berlin today to dedicate a plaque to his brother on the first anniversary of the late President's memorial visit to the divided city.

John F. Kennedy won the hearts of West Berliners on June 26, 1963, when he eliminated a tumultuous tour of West Berlin by declaring:

"I am a Berliner" (I am a Berliner.)

Thousands of West Berliners love Kennedy, a friendly welcome. But it was a sad crowd gathered to honor the late President.

## Loan Approved

WASHINGTON, June 26 (UPI)—Approval of a \$600,000 loan for an Idaho electrical cooperative was reported today by Rep. Ralph Harding and Sen. Frank Church, Idaho Democrats.

The loan, by the rural electrification administration, goes to the Raft River Rural Electric cooperative, Malta. It will finance construction of 13 miles of distribution lines to serve 124 new consumers.

In his press club speech, Senator said, "the Johnson administration in Washington does not believe in the future. It would forestall the future by employing the masses of power of the federal government to harass and to slow down the growth of our economy."

The Miller-Gooding sand hauler, which started Saturday to obtain 1,200 acre feet of water because of a near break in the east bank south of the railroad near Hazelton, Orieve says.

## Testifies

CHICAGO, June 26 (UPI)—The "indiscreet witness" in the James R. Hoffa \$25-million-dollar fraud trial testified in court today and announced he is ready to testify for the defense.

Eric Shinkel, chief bookkeeper for one of the seven men charged with Hoffa in the alleged conspiracy, was expected to identify financial records which the government considers vital to his case.

Shinkel was found in a Miami, Fla., hospital, where he said he was undergoing treatment for a heart ailment.

Johnson's  
Group Hit  
By Scranton

DETROIT, June 26 (UPI)—Gov. William Scranton hit out at the Johnson administration today for not believing in the future and the Goldwater wing of the Republican party for trying to ignore the future.

Neither effort, the Republican presidential hopeful said, will let the nation achieve greatness.

The remarks came during a speech to a Detroit Press club launch as the governor continued his bid to win the GOP presidential nomination. He said he was due to have a private meeting with the state's 40 delegates and 48 alternates to the National Republican convention. The vast bulk are pledged to support Gov. George Romney as a favorite son during early balloting at the convention.

In his press club speech, Scranton said, "the Johnson administration in Washington does not believe in the future. It would forestall the future by employing the masses of power of the federal government to harass and to slow down the growth of our economy."

The Miller-Gooding sand hauler, which started Saturday to obtain 1,200 acre feet because of a near break in the east bank south of the railroad near Hazelton, Orieve says.

## Death Takes Ben Sprague Burley

REV. June 26.—Ben P. Sprague, 77, died Thursday in a Memorial hospital.

He was born March 24, 1887, at Field, Ill., and married Mary Hillhouse, at American Falls, 1916. She died in 1932. He died Esther Tuttle in Burley, 1941.

He played professional baseball, young man in the three "T" team. He came to Idaho and lived in Rockland, where he resided. Later he moved to Payette, and for the past 40 years operated Sprague Sport. The business has been in the same location for the entire 40 years.

Mr. Sprague helped introduce baseball in the Rockland area. He served as business manager of the Burley semi-pro team and a Magic Valley Cowboy. He served on the board of directors for several years.

He was a member of the Burley Methodist church, a past member of the Burley Rotary Club, and the Burley Elks Lodge, for the past 40 years. Survivors include his widow, Mary, one son, W. Henry Sprague; three daughters, Mrs. Helen Guskill, Idaho Falls; Mrs. Betty Lou Knutson, Payette, and Mrs. Elizabeth Sawyer, Mountain Home; one brother, William M. Sprague, 64, Napa, Calif.; 13 grandchildren, and one great-grandchild. He was preceded in death by his son, Richard Sprague, in 1961.

Funeral services will be conducted at 2 p.m. Saturday in the Burley Methodist church by the Rev. Paul Ludlow. Concluding rites will be held at Pleasant View cemetery under the direction of the Burley Elks Lodge. Friends may call at the Payne Mortuary Friday afternoon and evening and until time of services.

## Magic Valley Funerals

KIMBERLY—Funeral services for Terry Lee Erickson will be held at 10 a.m. Saturday in the mortuary by the Rev. Martin Torrence. Final rites will be held at Sunset Memorial Park.

TWIN FALLS—Funeral services for Mrs. Elizabeth Grati will be conducted at 1 p.m. Monday. While Mortuary chapel by Son Doty, Jehovah's Witnesses. Final rites will be held at Twin Falls mortuary. Friends may call at the mortuary until 12:30 p.m. Monday.

KIMBERLY—Funeral services for Darrel Dean will be held at 10:30 a.m. Saturday in Reynolds' funeral chapel with the Rev. Earl Turrence officiating. Friends may call at the Kimberly Memorial Park. The family submits memorial contributions made to the Christian Church Camp Fund. Contributions may be sent to the Kimberly Christian church or left at the Reynolds' funeral chapel.

RUPERT—Funeral services for Mrs. Effie May Robertson Rasmussen will be conducted at 3 p.m. Monday in the Mindoka State Tabernacle by Delbert Buckley, bishop's counselor. Concluding rites will be held at Rupert cemetery. Friends may call at the Payne mortuary in Burley. Sunday afternoon and evening, and at the place of service at 1 p.m. Monday. Concluding rites will be held at the Buhl cemetery.

BURLEY—Funeral services for Ernest Wilson Miller will be conducted at 3 p.m. Monday in the Buhl First United Presbyterian church by the Rev. Dale K. Olson. Contributions may be made to the Buhl Presbyterian church memorial fund. Friends may call at the Albertson-Dickard funeral home from noon until 1 p.m. Sunday and until 1 p.m. Monday. Concluding rites will be held at the Buhl cemetery.

TWIN FALLS—Funeral services for Mrs. W. H. (Gertrude) Wright will be conducted at 11 a.m. Monday in White mortuary by the Rev. Ernest Hasselblad. Final rites will be held at Sunset Memorial Park.

BURLEY—Funeral services for Ben F. Sprague will be conducted at 2 p.m. Saturday in the Burley Methodist church by the Rev. Paul Ludlow. Concluding rites will be held at Pleasant View cemetery under the direction of the Burley Elks Lodge. Friends may call at the Payne mortuary Friday afternoon and evening and until time of services Saturday.

## 70 Sheep Killed As Truck Flips

HAILEY, June 26.—Twenty head of sheep were killed at 12:30 p.m. Thursday when a Cady Auto company truck driven by Marlan D. Spencer, 30, Jerome, overrode a 22 miles south of the Calem Store on U.S. 93. Spencer said that he glanced at a disturbance in the brush when the 1963 Kenworth truck and trailer caught the shoulder of the road and overturned. Arkoosh Sheep company was transporting the sheep to a summer range in Bear Valley.

Spencer was given first aid by Blaine County Sheriff Frank Lee, who for a large cut over his left eye.

## CONSUL APPOINTED

WASHINGTON, June 26 (UPI)—A native of Salt Lake City has been appointed U.S. consul general in Amsterdam, Netherlands. Wards M. Cameron will assume the position July 30.

## Weather, Temperatures

MAGIC VALLEY—Partly cloudy today, tonight and Saturday with scattered afternoon and evening thunderstorms. Winds east-southeast occasionally 10 to 20 miles an hour, with higher gusts this afternoon. Cooler Saturday. Highs today 82-84; Saturday 83-85; lows tonight 51-53, except Canas prairie highs 83-89 today, 76-82 Saturday; lows tonight 45-50. Outlook for Sunday partly cloudy with chance of a few showers or thunderstorms. Temperatures at 8 a.m.: 65 at Jerome, 73 at T. F. weather bureau with 40 per cent humidity; 63 at Rupert, 62 at Fairfield, 72 at Buhl, 67 at Castleford, 69 at Wendell; at noon, 87 at T. F. weather bureau with 18 per cent humidity. Barometer: 30.03. Soil temperatures: At T. F., four-inch, 74, eight-inch, 29-30; 10-inch, 31, 16-inch, 54; three-inch level at Buhl 71, at Wendell 73, at Jerome 75.

### FIVE-DAY FORECAST

The mean pressure pattern aloft through Wednesday shows slightly lower pressure along the Pacific Northwest states and into the northern Intermountain region, with higher pressure in the eastern Pacific. With a westerly to northwesterly flow aloft expected into the Intermountain region by the first of next week, the hot spell of the past two or three days will be giving way to lower temperatures in the valleys of southern Idaho, but the cold air should be moving more to the north of the agricultural valleys. Temperatures through Wednesday therefore will average from one to five degrees below normal. Normal temperatures for the next five days are: Gooding 84-82; Twin Falls 85-84; and Burley 83-80.

Frontal movement in Idaho will remain rather stationary through much of the next five days with scattered afternoon and evening thunderstorms possible in southwestern valleys and the northern areas of southcentral and southeastern Idaho moving into the first of the week. Showers will become a little more numerous over all valleys of southern Idaho by mid week. However, precipitation through Wednesday will be quite light with total amounts generally 10 to 15 mm or less.

Sunshine will remain quite abundant ranging around 80 to 85 per cent of possible. Increasing cloudiness during afternoon and evening hours with decreasing cloudiness during the night and early morning hours will be the trend through Wednesday. Winds will be stronger and at times gusty during afternoon hours, but early morning and late afternoon winds will be mostly light. Soil temperatures will reach a peak over the weekend with some cooling into the first of the week. Readings at the three- to eight-inch depth will range mostly in the 70s and into the mid 80s.

Favorable weather for farming activities will continue into the middle of next week over the valleys of southern Idaho with possible scattered shower activity causing little, if any, delays. Range lands and crop growth will make good advances from the past week weather and warmer weather now existing. Crop spraying and insect control operations will continue to find periods during early morning and late afternoon in which work can be done. Haying and field cultivation will continue to be major farm activities over the week-end.

### SYNOPSIS AND AGRICULTURAL SUMMARY

Currently, the stationary front continues to produce scattered clouds over the valleys of southcentral Idaho. Temperatures continued to rise yesterday with Rupert recording a 97 for the highest daytime temperature in the state. Scattered showers and thunderstorms in southcentral valleys produced generally less than measurable amounts of rainfall, although Buhl received .06 of an inch of rain accompanied by light winds.

Partly cloudy to locally cloudy skies are forecast through Sunday with scattered showers or thunderstorms in the afternoon and evening hours for much of southern Idaho. The high pressure aloft over the Intermountain region will continue to hold another day or two before another cold air to move northward.

Temperature readings will remain mostly unchanged today in these valleys with some slight cooling on Saturday. Highs today will range from the mid 80s into the mid 90s and on Saturday from the low 80s to the low 90s. Minimum temperatures tonight will be in the mid 40s to the low 60s.

### TEMPERATURE AND PRECIPITATION

Highest temperature Thursday, lowest temperature last 12 hours, precipitation for 24 hours ending at 6 a.m. CST.

# Congress' Role in Smoking Problem Is Growing Hazier

WASHINGTON, June 26 (UPI)—The future role of congress in the problem of smoking and health is growing hazier all the time. A host of bills is pending—all

asking congress to move in a host of different directions—and all the paper seems to have created a confusing maze.

The confusion has been compounded by a decision of the

federal trade commission to issue a rule requiring that cigarette advertising and labels include a warning next year that smoking may cause death from cancer and other diseases.

The FTC announced its rule at a house commerce committee hearing called to consider bills that would enact a similar rule into law.

Some of the courses congress has take now that the FTC has issued its rule are:

1. Do nothing and the FTC would go through with its rule.

With the tobacco industry taking the rule to federal courts, years of litigation would follow.

2. Approve one of several bills introduced since the U. S. public health service's special advisory committee said that cigarette

smoking is a health hazard. If congress passes a law requiring the same labels the

rule requires the confusion likely would be over. Without court suits, the tobacco industry likely would begin putting warning notices on its labels and advertising.

3. Approve one of several bills which would either delay the FTC decision for three years or require approval by congress before the FTC may issue a rule.

These bills have the support of congressmen from the tobacco states and of those congressmen who believe the FTC has overstepped its authority.

4. Approve legislation proposed by the department of health, education and welfare giving the food and drug administration authority to regulate cigarette labels under the hazardous substances act.

Such a law, however, might not stop the FTC rule. Committee Chairman Paul Hand Dixon has testified that the FTC still would have the legal responsibility of regulating cigarette advertising and labels unless con-

gress passed a law specifically taking away the responsibility.

5. Pass a resolution expressing the sense of congress that the FTC should postpone or discard its rule. Dixon said the FTC would "obey such a command of congress."

6. Accept a suggestion by the tobacco industry that if congress must pass a law about warnings it should tone down the kind of warning required.

7. Pass a law completely out-

## Irrigating

DECEMBER, June 26—Irrigation water has been turned into the canals and pumps at first, second and third lifts east and north of Declo. They were turned off for eight days because of heavy rains.

Several farmers are replanting beans after hall damage last week.

Burley, 678-5181

## Doorknob Clue

DALLAS, June 26 (UPI)—Police caught a 23-year-old man in a parking lot yesterday. His pockets were filled with 101 nickels, 117 quarters, seven half-dollars, 133 dimes, a penny and a doorknob.

Police conducted a quick search and found a burglarized restaurant without a doorknob.

## Young GOP Unit Formed At Gooding

GOODING, June 26—Charles McDevitt, Ada county state representative and past chairman of the Idaho Young Republicans, was guest speaker at the first organizational meeting of the Young Republicans for Gooding County Wednesday night at War Memorial hall.

Douglas Bradshaw, Wendell, was elected chairman of the group with Dr. B. A. Boden, vice chairman for Gooding; Larry Peterson, vice chairman for Wendell, and James Faulkner, vice chairman for the Bilsa-Hagerman area; Larry Robertson, Gooding, treasurer, and Mrs. Larry Peterson, Wendell, secretary.

Peterson was named as program and fund-raising chairman, with Robert Fields, Gooding, as co-chairman. William Watz, Gooding, is publicity chairman.

Bradshaw introduced Ralph Faulkner, Gooding county Republican chairman, and Hope Cading, Boise, state chairman of the Young Republicans, who explained the functions and purposes of the organization.

A constitution was read and adopted, with dues set. The group will meet on the third Wednesday of each month.

## H. Savelberg Dies in T. F.

Harry Hubert Savelberg, 81, 327 Seventh avenue east, died Thursday in Magic Valley Memorial hospital of a brief illness. He was born Sept. 19, 1882, in Haaland, Holland, and came to Buhl in April, 1911. He lived in the Rogerson, Hollister and Roseworth areas for many years, and he moved to Twin Falls in 1943.

He was a member of St. Edward's Catholic church in Twin Falls. He married Bridgette McGovern in Canada, April 24, 1911. Surviving, besides his widow, are a son, W. T. Savelberg, Hailey; three daughters, Mrs. Ernest (Mary) Pinkston, Castleford; Mrs. Avis (Helen) Blew, Kamas City, Kamas, and Mrs. Carl (Margaret) Fellon, Twin Falls; a sister, Mrs. R. V. Chojnacky, Jerome; 10 grandchildren and nine great-grandchildren. He was preceded in death by two sons, Edward and Harry Jr.

Rosary will be recited at 8 p.m. Saturday at the Reynolds funeral chapel by the Rev. Thomas Taylor. Requiem mass will be celebrated at 9 a.m. Saturday in St. Edward's Catholic church by the Rev. Father Taylor. Final rites will be at the Buhl cemetery.

## Burley Honors Miss Peterson

BURLEY, June 26—Funeral services for Emma G. Peterson were held Wednesday in the McCallum chapel with Bishop Norman H. Hurst officiating.

Prelude and postlude were played by John Hurst. Invocation was given by Wayne Lewis. Bishop Hurst gave the obituary and Nona Jacobs and Edith Dunn sang. Speakers were Joseph A. Gillett and Oleen Lewis. Benediction was given by Marvin Jagger.

Pallbearers were Peter A. Peterson, Peter A. Peterson, Jr., Merle Clayville, Wayne Lewis, Olen Lewis and Earl Clayville.

Flowers were arranged by the Declo ward Rurle society.

Final rites were held in Declo cemetery where the grave was dedicated by Melvin B. Darrington.

Lula Graves Paid Honor at Jerome

JEROME, June 26—Funeral services for Lula Graves were held Wednesday at the Hove Chapel with the Rev. Ralph B. Yatherell officiating.

Soloist was Mrs. Dale Tanner and accompanist was Mrs. Harold Campbell.

Pallbearers were Charles P. Otto, David Becker, Dale Vining, Gilbert Tilley, Calvin Neal and Rex Davis.

Final rites were held in the Jerome cemetery.

## NATIONAL WHIRLIGIG

BY ANDREW TULLY

WASHINGTON, June 26.—In an age when big government keeps sticking its nose deeper into the citizen's privacy, it is becoming a rule of thumb to note a rule of thumb by the Pentagon that the detector tests for its employees may be ineffective as well as immoral.

This is a strong candidate for the belated admission of the year, since the same report, by a Pentagon scientist, notes that the federal government has conducted some 200,000 lie detector tests over the last 10 years. Meanwhile, a defense department spokesman blandly announces that the tests will continue, possibly because the government is stuck with 525 lie-detector devices.

**DETECTOR DON'T DETECT**—Naturally, the Pentagon report is all dressed up in ambiguity, but the nut of it is that "in the present time," nobody has offered sufficient evidence to prove that this authoritarian technique works. Moreover, the report adds that the occasional use of drugs and hypnosis on the poor subject sometimes causes him to spout "spurious" stories about his private life.

It is a flip-on the futility of the situation that this report has just been released after being kept secret for two years by the Pentagon. The findings were submitted to a house government operations subcommittee July 31, 1962, and immediately classified by defense. They would still be locked up had the subcommittee not insisted on their declassification.

**MILLIONS FOR FUTILITY**—But publishing that report is not enough. Somebody on Capitol hill or in the White House should hold defense Secretary McNamara's feet to the fire and demand to know why this silly operation is being continued. More than 4.5 million dollars of the taxpayers' money was spent on the project just year, an ironic twist to the old dodge of forcing conservative priests to dig their own graves. Here is one item that could be cut from Marvelous Mac's over-weight budget.

Capitol hill testimony on the use of lie detectors on defense and state department employees reads like something out of a pornographic comic book. Young girls have been asked dirty questions by male "examiners" about their sex life, with lascivious and lip-smacking demands for details. Male employees have been prodded into describing youthful indiscretions with other boys. Reformed drunkards have been compelled to live again the nightmares of their past.

**TIME TO DISOWN PRACTICE**—Admittedly, the sexual deviate and the alcoholic is a black-and-white security risk in the more sensitive areas of government, and everything humanly possible should be done to uncover these risks. But no citizen's normal sex life is anybody's business but his own, no matter where he works, and even if it were Big Brother's peeping-Tom insistence on hearing all the sordid details should turn the nation's stomach.

Clearly, it was a pernicious intellect that originally dictated use of lie detectors on Uncle Sam's employees, and the time has come for the government to disown this monstrous practice. But the report indicates not only a total lack of penitence, but an idiotic belief that this horrid gadget even has global possibilities. It suggests that lie detection might be employed to help police an arms-control agreement with the Soviet Union. How? O bureaucratic masters of our fate, by attaching to Khrushchev's arm?

This cumbersome system is entirely unnecessary. It's the sort of vehicle that gave pomp to colonial elections, pomp that's no longer necessary or even desirable. Let the President be elected by the popular vote of all the people.

Perhaps the supreme court might point the way to such a change if and when it ever gets the chance to rule on the constitutionality of the college. The court can do nothing until a case is filed and appealed up to the top court. Some citizens have declared the court is more interested in "making law" than in ruling on validity of individual statutes. They point to the reapportionment decision as an example, declaring the court had to stretch several points to reach its conclusion.

If that's an accurate and fair appraisal of the court's action, the electoral college is dead when the court gets around to deciding.

### Views of Others

#### THE LONG, HOT SUMMER

The word now from Idaho State University is that the institution "may" be able to issue the call for construction bids on a new fine arts building during July, and "may" see the start of construction during August. In other words, the protracted nature of the state building fund advisory council has cast the institution half the construction season.

The board worried away the wiggler on nonexistent technicalities, fiddled around for another couple of months before getting around to calling a meeting, and finally, very late in the year, told the university to give the architect the green light on plans and specifications.

Meanwhile, half the construction season has been blown, construction costs have gone up, and the students at ISU will attend another year of classes in former barracks buildings with sagging floors, dim lighting and the odor of overfilling toilets.

The students aren't the only losers. The taxpayers have to pay their share as well. Every time construction costs increase, inflation robs the taxpayer. Every month the building has been delayed has meant a less substantial building must be constructed to stay within the budget. The building that could have been started last fall was a superior structure to the one that inflation will now dictate.

Everything the council procrastinates on a state building, it gives the taxpayers less for their money. The damage is done at Idaho State and other institutions this year, and it might seem there is no use crying over spilled tax money. Nonetheless, it does seem that in the future the building council might gear its deliberations more to immediate state needs than to the convenience of the council members.—Idaho State Journal

#### HOON: FUTURE WATER

Housewives will not be aware of any change, but within a matter of months they will begin switching from ADB to LAS.

In other words, they will begin using a different kind of detergent in their sinks and washing machines, one with the same cleaning power as before but which won't cause the foaming in some surface waters that has brought so much criticism against supersensitive detergent manufacturers.

For housewives who happen to have a degree in chemistry, it means that the familiar alkyl benzene sulfonates (ABS) with branched-chain hydrocarbons will be supplanted by the sodium salt of an alkyl alkyl sulfonate in which the alkyl group in the molecule is strung out in linear fashion (LAS).

It is said that it is the "kinks" in the hydrocarbon molecule that make ordinary detergents so resistant to biological breaking down. Straightening out the kinks produces a "soft," degradable detergent that is much more palatable to bacteria, without whose help man would soon be choked in his own wastes.

After more than a decade of research, the voluntary, industry-wide, multi-million-dollar conversion program is expected to be completed by the end of 1965.

Though detergent foaming is only one small, and essentially harmless, factor in the nation's water pollution problem, it is by far the most visible. The more serious matters of pollution remain to be solved—such as industrial wastes and simply keeping up with the ordinary by-products of our burgeoning cities.—Idaho Falls Post-Register.

**POLLS HAVE LITTLE EFFECT**—Pollsters run into trouble in the last days of a campaign, when the "middleclass" make up their minds, too late for accurate counting in the polls. That's what happened in the Truman-Dewey contest of 1948, and more recently, in the Oregon primary. It only shows that people aren't really swayed by polls after all.

Los Angeles Times.

## Hans Brinker Had It Easy!

## Interpreting the News

By EYLE C. WILSON  
(United Press International)

REGARDING his electoral voting record, Senator Barry Goldwater will find the presidential electoral college rigged against him. The electoral college would be rigged against any more or less conservative presidential candidate.

State by state, presidential electors are chosen on a winner-take-all basis. That system has made the left wing racial, labor pressure groups political powerhouses in U.S. politics. These pressure groups are concentrated in the great cities such as New York, Chicago, Detroit and Philadelphia.

The most numerous electors voted—often three times—were won by the candidate supported by these pressure groups. The big concentrations of population are too much for the rural and small town voters where a more conservative point of view may be expected to prevail.

The AFL-CIO Industrial Union department (IUD) administered this situation in a discussion of the meaning of the 1960 presidential election. The IUD said: "Connally was elected largely by big city voters." The Republican national committee presented statistics proving the IUD to be correct. For example:

In 1960 Richard M. Nixon carried 244,000 votes outside Detroit. John F. Kennedy carried 317,000 Michigan votes for a plurality of 73,000 votes outside Detroit. John F. Kennedy carried 317,000 Michigan votes. His Detroit plurality was 31,730. Detroit provided Kennedy

with all of Michigan's electoral votes.

Michigan's plurality actually outdid Oklahoma's 44,451 votes. Kennedy piled up 456,112 votes in Chicago and took all of Illinois' electoral votes. Philadelphia and Pittsburgh delivered all of Pennsylvania to Kennedy. New York City delivered all of New York state.

The racial and labor pressure groups are among the most powerful political elements of left wing U.S. politics, of which Americans for Democratic Action (ADA) probably is the most effective instrument. The lefties are well aware of their advantages under the present system of choosing presidential electors.

ADA, the National Association for the Advancement of Colored People, Walter Reuther's CIO and others have banded down to attempt to reform the system. Some years ago more than 50 senators voted in support of a constitutional amendment that would have yanked the run-off out under the pressure groups. The pressure groups moved in hard and fast opposing the proposal.

Senators began dropping off the sponsor list like windblown rotten apples. Conservative bushmeat who do little more than cry-on-each-other's-shoulders could accomplish something constructive in their own behalf if they had the wit and energy to become interested.

Sen. Karl E. Mundt, R., S.D., and others have sponsored Senate joint resolution 1 to reform the electoral college system. The reform proposal is a good one although the left wingers will cry out against it. An inquiry into the left wingers will be made.

When old-timers reminisce, they don't dwell on such points as:

Probably not half the homes in America had indoor plumbing.

Oldtimers 60 years of age or more like to drop a tear in their napkin when they recall how much better and more romantic life was in their youth than it is now.

But was it really?

Life in America before World War II still had something of a pioneer quality.

People worked a 50- to 60-hour week.

When a rug had to be cleaned it was hung on a line in the backyard and dust was spattered out with a beater.

You didn't ride on power movers; you cut the grass with a scythe.

If you were wealthy enough to own a car, you had to hand crank it to get the motor started.

The roads we're 100 miles without a flat tire: if you old get a today and tomorrow.

## TAYLOR'S VIEWS ON WORLD NEWS

By HENRY J. TAYLOR

A classic passage in Leon Trotsky's "History of the Russian Revolution" describes how a soldier, instead of shooting at a band of red demonstrators, was shot at them.

The winks.

Trotsky said, marked a significant victory in communist infiltration and thus a turning point in the basic Bolshevik scheme.

Behind Washington-managed news, the red winks have long been blinking with equal relish in South Viet Nam. Now they are blinking right in the center of Saigon, where we have had four U.S. commanders one after the other.

Gia Dinh province includes the city's suburbs. An estimated 200 communist cells operate there.

When we recently staged free elections in 400 Quang Tri province strategic hamlets more than 100 Viet Cong agents were elected chiefs. The story is as old as the Trojan horse.

When a certain point of communist infiltration has been reached, military force is ineffective. This is the tragedy of America's armed strength after you have mixed the boat in an area like Southeast Asia. Yet for three solid years the Washington handouts were mere image-making material, and Secretary of Defense Robert S. McNamara leaped back and forth with all the aplomb of Puff, the Magic Dragon.

The winks are the frightened people's response to the prestige of a probable winner waving a hangman's noose. They know they must end up on the side of their future ruler or perish. Therefore, who will the winner be?

Instead of being outraged by this intensely human attitude we should reply, "But for the grace of God, there to I."

OFFICERS OF THE Twin Falls Soroptimist club at the annual installation meeting this week in the Roberson hotel Desert room are, from left, Helen Brown, financial secretary; Mrs. Richard Howard, outgoing president; Mrs. Ralph Harris, recording secretary, and Mrs. Glen Cannon, treasurer. (Times-News photo)

## Soroptimist Club Installs Mrs. Steene as President

Mrs. Ann Steene has been installed as president of the Twin Falls Soroptimist club. Mrs. Gudrun Peterson was installing officer.

Other officers are Mrs. Sterling Larson, vice president; Mrs. Ralph Harris, secretary; Mrs. Glen Cannon, treasurer; Helen Brown, financial secretary, and Mrs. Morris Yavold, director.

Mrs. Richard Howard, outgoing president, told members the club has pledged \$1,000 to the civic auditorium fund, won first place in the Rocky Mountain region for a service project and is furnishing the main lounge

## Jerome Aids Federation

JEROME, June 26—Some 400 pounds of clothing were packed and shipped to Save the Children Federation this week by the American Legion and American Legion auxiliary.

Save the Children federation is a non-profit organization serving underprivileged persons in the United States and overseas. During the past six years nearly one-million pounds of clothing for children have been sent to areas at home and abroad.

The local American Legion and auxiliary have supplied approximately 600 pounds of clothing in recent years.

Co-chairmen of the drive were Mr. and Mrs. L. W. Simberg, assisted by Mr. and Mrs. Carlton, Mr. and Mrs. Jake Walls, Mrs. A. D. Watson, A. D. McMahon, Mrs. Leo Cones, Mrs. Flora Hitchcock and Mrs. George Euston.

of the new "Y" building at a cost of more than \$1,000.

Mrs. Ann Sinclair, the club's representative to City's state, reported on her activities at the state meeting.

Special guest was Mrs. J. T. Tugue, Murtaugh.

## Woodrow Kite Is Honored at Buhl

BUHL, June 26—Funeral services for Woodrow Kite were conducted at 2 p.m. Wednesday at the Albertson-Dickard funeral chapel by the Rev. Delmar M. Tolley, pastor of the Buhl First Christian church.

Mrs. William Watt, widow, was accompanied by Mrs. Stanley Korn, originally.

Survivors were Ellsworth Schaefer, Buhl; one daughter, A. L. Bowman, Ernest Phinikian, Buhl; and son and Jack Palmer.

Concluding rites were held at Sunnyside Memorial park in Twin Falls.

K. H. Woman Is Hurt in Crash

KING HILL, June 26—Mrs. Cecil Watson was injured about the neck and shoulders and scratched about the face on route to Lawiston.

She lost control of her Volkswagen in a rain and hail storm on Lewiston hill and the car rolled. She was thrown clear.

Mrs. Watson is taking an

eight-week course in Spanish at the University of Idaho. Watson reported Thursday she was not hospitalized. The car was demolished.

## Rupert Area Woman Dies At Age of 80

RUPERT, June 26—Mrs. Edie May Robertson Rasmussen, 80, died Thursday in Minden Memorial Hospital of a lingering illness.

She was born Nov. 14, 1883, at Fountain Green, Utah, and was married to Henry A. Rasmussen in February, 1908, at Evanston, Wyo. The marriage later was solemnized in the Logan LDS temple. She had lived in Idaho for 41 years.

She was an active member of the LDS church and served as ward primary president and primary teacher. She was a Relief society visiting teacher for several years until her death. She was member of the Don Yol Club in Rupert.

Survivors include her husband, Rupert; one daughter, Mrs. Wayne (Ruth) Sunderland, Rupert; one son, Henry B. Rasmussen, Baldwin Park, Calif., and 10 grandchildren.

Funeral services will be conducted at 2 p.m. Monday in the Minden Stake tabernacle by Delbert Buckley, bishop's counselor. Concluding rites will be held at Rupert cemetery. Friends may call at the Payne mortuary in Rupert.

LIBRARY TO HAVE CHANGES RICHLFIELD, June 26—Mrs. J. S. Eward, Richfield librarian, and Mrs. Rachel Benake, extension librarian from the state library at Boise, are making changes in book arrangements and discarding unused books at the Richfield public library this week. Regular library opening hours are continued without interruption. Mrs. Eward announced Wednesday.

### COMMENT by R. E. BERG

#### GRADUATION

As many parents have discovered to their dismay, human knowledge has made remarkable progress since some of us went to school . . . and the problems our young students bring home from their high school classes can sound like Greek . . . even when the class is in physics.

We forget much of what we learn in school. And a lot of what we learned then fails to have been relevant as the sciences advance. So if the purpose of education was simply to give us facts to remember, the whole process would be dubious.

The point is that education is not simply a matter of learning facts. It is also training . . . training of the mind to work upon facts, whatever they may be. Training in the sense of building and strengthening character. Training in the ways of life, and in the truths that do not change. Its value is not always measured in grade, but in our ability to cope with life. This is why graduation is not really an end, but a beginning.

BERG'S  
Twin Falls Mortuary  
733-1300  
Next week Mr. Berg will comment on another interesting subject.

## G. Werry Honored at Last Rites

**ELLEVUE**, June 26—Funeral services were held for N. G. G. Werry at 2 p.m. Thursday at the Community church. Officiating were Terry Allen and Deane Worthy. Garth Bins was best man and Mrs. Marguerite Werry was maid of honor.

Services were arranged by members of Mayflower Rebekahs No. 41.

Honorary pallbearers were Marvin Jossell, Charles Wright, George McDaniel, Lester L. Johnson, Otto Diabenheit and Miller E. Schaefer.

Honorary pallbearers included George V. Larson, Danbury, Minn.; Robert C. Mitchell, Goodlet, Minn.; Kenneth Hulme, Haegerstadt; George Merrick, Julianita; Wood Werry, Shoshone; Ichabod Sanger and George Venner, both Ketchum; William G. Brade, Jr., Elko; J. J. McFadden and Leonard Koch, Boise; and Oscar E. Thamm, Caldwell.

Thomas Walker, Twin Falls; Wayne Clark, County; Peter Harrison and Milford Swant, Carey; Dr. Robert H. Wright, Oscar J. Gline, A. T. Johnson, Robert H. Horne, Paul Jones, Berwyn Burke, Joseph W. Reid, Fred Vancl, R. G. Price and Connerius, Leon Friedman, Charles Jones, John Davies and Roger Albrechtson, all Hailey.

Honorary pallbearers from Bellevue include Floyd Slevens, E. McNary, Walter Nelson, Ward L. Beck, Joe Bruesch, Woodrow Wattis, James Etchison, E. Hatch, E. E. Williams, Gerald Sherman, Everett O'Donnell, Everett Campbell and Robert Peterson.

Concluding rites were held at Bellevue cemetery by Bellevue Lodge No. 9, IOOF.

## Buhl Pioneer Dies at Home At Age of 76

**BUHL**, June 26—Ernest Wilson Miller, 76, 228 Thirteenth avenue north, died Thursday afternoon at his residence of an extended illness.

He was born March 22, 1888, in Hutchinson, Kan., and moved with his family to the Oklahoma territory as a small boy. He came to Buhl in 1910 and helped lay out the townsite and clear the sagebrush. He laid the first sagebrush in Buhl. He raised sheep for several years and then turned in the Northview district after his retirement in 1940. He moved to town in 1943.

He was married to Margaret Butterworth, Buhl, 10, 1915, in Tempe, Ariz. They celebrated their golden wedding anniversary last year. He was a member of the Buhl First United Presbyterian church and the Modern Woodmen of America Lodge.

Besides his widow, he is survived by three daughters, Mrs. R. J. (Gretty) Piper, Jerome; Mrs. Elvin (Lola) Noh, Buhl, and Mrs. Merlin (Helen) Hays, Gordon, Neb.; one sister, Mrs. Ruth Marshall, Long Beach, Calif., and several grandchildren.

Funeral services will be conducted at 1 p.m. Monday in the Buhl First United Presbyterian church by the Rev. Dr. K. Olson. Contributions may be made to the Buhl Presbyterian church memorial fund. Friends may call at the Albertson-Dickard funeral home from noon until 6 p.m. Sunday and until 1 p.m. Monday. Concluding rites will be held at the Buhl cemetery.

## Grange Sets Fair Plans

**RICHFIELD**, June 26—Richfield Grange members made plans Wednesday to participate in the Lincoln county fair Aug. 8, with Glen Ross as produce booth chairman for the local entry. Members approved applying for a game or food booth during the meeting in the Methodist recreation room.

Only one meeting will be held in July, July 22. The annual Grange picnic will be held July 19 at the Wood river picnic area above Ketchum. Ponoma Grange meeting will be held at 8:30 p.m. Thursday in the Methodist recreation room.

A donation of \$20 was approved for the Idaho Youth Ranch, Rupert, building fund. The money was received for winning first place in the Outlaw day parade.

Donald Ward, Odell Chaffield and Glen Ross gave impromptu talks on farming. Mrs. Chaffield, Grange master, served refreshments.

## Professor Speaks Sunday at Eden

**EDEN**, June 26—Dr. Ruth Crob, professor of religion at the College of Idaho, will be guest speaker at the Eden United Presbyterian church Sunday.

Dr. Crob will conduct worship services at 10:30 a.m. for the combined congregations of Eden and Hazelton Presbyterian churches.

Church school starts at 10 a.m. at Eden with classes for all ages.

**BRIDGE PARTY FIELD**  
**RICHFIELD**, June 26—Prizes were won by Mrs. Gail Hansen, Mrs. Lester McClintick, Mrs. Lyle Piper and Mrs. Ralph Riley, Jr., during the dessert contest of the Mariettes Bridge club meeting Wednesday evening at the home of Mrs. Manuel King. Mrs. Robert Langston was a guest.

## News Around Idaho

**BOISE**, June 26 (P)—Articles of incorporation were filed yesterday in Boise for an Idaho Collectors association. The non-profit association plans to promote fair dealings between collecting agencies and creditors and understanding among its members. Named to the board of directors for the first year were Louis Oestmann, Sandpoint; Hettie Girard, Nampa; Dean Ferney, Rexburg; Bonnie Jordan, Twin Falls; Clayton Smith, Coeur d'Alene, and Earl Bolen, Meridian.

**BOISE**, June 26 (P)—Appointment of Bruce M. Whitaker as executive director of the Idaho Society for Crippled Children and adults was announced yesterday. Whitaker, who served as field representative of the Oregon Society for Crippled Children and Adults for four years, succeeds Lee Zumwalt, who resigned a month ago.

**BOISE**, June 26 (P)—Fifteen women pilots are expected to wing from Boise to Pocatello Saturday in the annual "Idaho Women's Air Derby." Contestants range from 20 to that age at which a woman pilot keeps mum, said Publicity Director Laura Conner.

Twenty-five pallbearers were Marvin Jossell, Charles Wright, George McDaniel, Lester L. Johnson, Otto Diabenheit and Miller E. Schaefer.

Honorary pallbearers included George V. Larson, Danbury, Minn.; Robert C. Mitchell, Goodlet, Minn.; Kenneth Hulme, Haegerstadt; George Merrick, Julianita; Wood Werry, Shoshone; Ichabod Sanger and George Venner, both Ketchum; William G. Brade, Jr., Elko; J. J. McFadden and Leonard Koch, Boise; and Oscar E. Thamm, Caldwell.

Thomas Walker, Twin Falls; Wayne Clark, County; Peter Harrison and Milford Swant, Carey; Dr. Robert H. Wright, Oscar J. Gline, A. T. Johnson, Robert H. Horne, Paul Jones, Berwyn Burke, Joseph W. Reid, Fred Vancl, R. G. Price and Connerius, Leon Friedman, Charles Jones, John Davies and Roger Albrechtson, all Hailey.

Honorary pallbearers from Bellevue include Floyd Slevens, E. McNary, Walter Nelson, Ward L. Beck, Joe Bruesch, Woodrow Wattis, James Etchison, E. Hatch, E. E. Williams, Gerald Sherman, Everett O'Donnell, Everett Campbell and Robert Peterson.

Concluding rites were held at Bellevue cemetery by Bellevue Lodge No. 9, IOOF.

## Circus Opens Tuesday at Jerome Site

**JEROME**, June 26—The King Brothers three-ring circus will arrive Tuesday for two performances in Jerome.

The circus is sponsored by the Jerome volunteer fire department. The circus, currently on its 45th annual nationwide tour, is considered one of the three largest touring tented circuses in America today.

There are more than 100 circus performers and stars in the show. Included will be high aerial thrillers, acrobatic and tumbling champions, tightwire wizards and many others. Barbara Furdell will present a barbecue riding act.

Other features are the trained animal acts which include camels, canines, chimpanzees and horses. One of the newer features is the Beale elephants who wear wigs and dance to Beale music.

Tickets will be on sale one hour before the doors open at the circus grounds. From here the circus will move to Burley.

**Richfield Youth**

## Is Recovering After Blast

**RICHFIELD**, June 26—Hans Wynn Swallowton, 20, has been released from St. Benedict's hospital, Jerome, after treatment for severe burns suffered in a gasoline explosion at his father's service station Saturday at Richfield.

The youth sustained first and second degree burns on one side of his face and one arm when another youth, Robert Faddis, 20, picked up an acetylene torch which was believed to have been turned off. Gas fumes ignited from the gas tank of Faddis' 1959 Pontiac, causing flames to blow towards Swallowton.

The two young men had removed the gas tank from Faddis' car, filled it with water and poured out the water shortly before the accident. The car and gas tank were not damaged and Faddis was uninjured.

Swallowton was treated in Shoshone, then taken to Jerome.

**Three Scouts to  
Get Eagle Rank**

Three Scouts from Twin Falls pack will be honored during an Eagle Scout court of honor to be held at 7:30 p.m. Saturday in the Memorial Lutheran church.

Danny Clapp, Earl Knutson and Robert Lake will be advanced to Eagle rank at the ceremony.

Curtis Eaton will be guest speaker and refreshments will be served after the ceremony.

## Contest

**BUHL**, June 26—Tryouts to select a queen to reign over West End day activities at the Twin Falls county fair and rodeo will be conducted at 8 p.m. Sunday in the riding area of the local airport under direction of Buhl Jaycees, says Jerry Wray, chairman.

Any single girl between the ages of 17 and 25 is eligible to compete. Ability in horsemanship will be one of the main qualifications in selecting the queen candidate.

Anyone wishing more information on the contest can contact Wray.

There are more than 100 circus performers and stars in the show. Included will be high aerial thrillers, acrobatic and tumbling champions, tightwire wizards and many others. Barbara Furdell will present a barbecue riding act.

Other features are the trained animal acts which include camels, canines, chimpanzees and horses. One of the newer features is the Beale elephants who wear wigs and dance to Beale music.

Tickets will be on sale one hour before the doors open at the circus grounds. From here the circus will move to Burley.

**Farm Bureau to  
Discuss Bylaws  
At Shoshone**

**SHOSHONE**, June 26—Lincoln county Farm Bureau board of directors will meet at 8:30 p.m. Thursday at the courthouse.

Board members will approve the county bylaws in preparation for incorporation of the county. Macay Williams, Nampa, field director, will be present.

A 100 per cent attendance of board members is required to approve the bylaws. Date for the county talk-talent contest and annual picnic will be designated and consideration given for a county-wide meeting of primary election candidates.

**Paul Newton Is  
Kiwanis Speaker**

Paul Newton, city engineer, presented a chalk talk on the city sewage disposal plant at the noon meeting of the Twin Falls Kiwanis club Thursday. After the meeting the Kiwanians toured the plant. Highlights of the tour were seeing the actual facilities in operation and an explanation of the modern equipment by Newton.

It was announced the Kiwanis International convention will be held Sunday through Thursday in Los Angeles.

Guests at the meeting were George Powell, Elmer, and Paul Reynolds, Twin Falls. Byron Wright, Elmer, was a visiting Kiwanian.

## Buhl Donors Eye 100-Pint Blood Quota

**BUHL**, June 26—All west end residents are urged to help meet the 100-pint quota when the Red Cross bloodmobile stops from 2 to 8 p.m. Monday at the Buhl Moon Hall.

Bloodmobile equipment will be set up and taken down by members of the Buhl national guard. Dr. Charles Cullings, local physician, will supervise the drawing, assisted by local nurses and nurses-aides.

Buhl Jay-O-Ettes will serve as typists and receptionists and members of the Castleford Grange will be in charge of the canteen. Mrs. Robert Dickard is in charge of sending letters to families of persons who have received blood during the past six months and members of Beta Sigma Phi will contact business firms during the drawing.

**DEGREE IS AWARDED**  
**SHOSHONE**, June 26—Mrs. J. D. McKendrick has received a bachelor of science degree from the University of Idaho, but plans to continue to study at the university again next year when her husband is taking graduate work. She was on the dean's honor roll. McKendrick is the son of Mr. and Mrs. M. E. McKendrick, north Shoshone.

## College of Idaho to Keep Same Tuition, Board Fees

**COLLEGE OF IDAHO**, Caldwell, June 26—There will be no increases in tuition or room and board charges for the coming year at the College of Idaho, officials reported today.

Trustees reviewed current charges and determined there would be no raise at this time.

The past year the college instituted its new guaranteed tuition program. Under this plan students entering the college for the first time, either as freshmen or transfer students, are guaranteed they will not have to pay any higher rate of tuition for future semesters even though in succeeding years tuition increases may have been scheduled affecting other new students. The guarantee lasts for the normal number of semesters required to achieve a bachelor's degree.

Tuition at the College of Idaho will continue to be \$500 per semester in 1964-65. Room and

board rates for resident students are \$350 a semester. Room and board rates are tied closely to the cost of living index and there is no guarantee program in this area, officials indicated.

MIL. AND MRS. RONALD T. CLAY  
(Shig Morita photo)

### Miss Denton, May Exchange Nuptial Promise

BURLEY, June 26 — Mildred May Denton and Ronald T. Clay exchanged June 7 at the Paul Methodist church. The bride is the daughter of Mr. and Mrs. Robert Denton, Paul, and the bridegroom is the son of Mrs. Clara Clay, Magnolia, Mass., and John Clay, Boston, Mass.

Beauty baskets of white and pink carnations with pink bows and candelabras formed the background setting for the afternoon nuptial ring ceremony performed by the Rev. Floyd White.

Mrs. Robert Widmer played the wedding music and accompanied Mrs. Jack Caldwell, soloist. The bride, given in marriage by her father, wore a peau de soie gown styled with a scooped neckline, fitted bodice and long full point sleeves accented with lace trim on skirt and bodice. The bouffant skirt formed a chapel train.

Her elbow-length veil of illusion fell from a clasp of seed pearls and lilies of the valley, she carried a white Bible surrounded

### Miss Bremers, Bengoechea Say Wedding Vows

BUHL, June 26 — Shirley Ann Bremers, daughter of Mr. and Mrs. Charles Bremers, Buhl, became the bride of Melvin W. Bengoechea, Twin Falls, son of Mr. and Mrs. Victor Bengoechea, Jerome, in a simple ring wedding ceremony in a civil ceremony May 10 at Elk.

The bride wore a blue street-length sheath dress designed with a scooped neckline and short sleeves. A matching blue hat with veil, white accessories and a corsage of white carnations completed her ensemble. Carol Boguslawski was maid of honor. She wore a pink dress accented with a pink carnation corsage. Bruce Miller, Twin Falls, was best man.

The newlyweds were feted at a wedding reception June 6 at the Buhl First Presbyterian church.

The bride's table featured a white lace tablecloth highlighted with blue bows (trim) accented with a four-tiered wedding cake. The cake was decorated in blue and white, topped with an array of wedding bells adorned with ferns and lilies of the valley.

Reception assistants were Mrs. M. MacLeod and Mrs. August Bremers, grandmothers of the bride; Mrs. H. A. Wright and Mrs. Mary Engle, aunts of the bride, and Mrs. H. M. Smith.

Illa MacLeod, Naomi Dopyan and Mrs. Woodie Turley presided at the gift table. Guests were John Prudik, Gayle Prudik, Jean Bremers and David Bremers. Mrs. Bruce Fuller registered the guests.

The bride is a graduate of the Cliftord High school. She attended Boise junior college and Twin Falls Business college and employed at Bellanca Credit corporation.

The bridegroom attended Jerome school and is employed by Amoco Distributing company, Wendell. The couple resides in Twin Falls.

Special out-of-town guests included H. C. Valentine and Dr. Roseo Bigler, Arcadia, Calif.; Mrs. Mary Engle, Boise; Mr. and Mrs. H. A. Wright, Gooding; Scott Bengoechea and Karen Elizim, Pocatello; Mr. and Mrs. August Bremers, Mrs. M. S. MacLeod and Lila Kenneth, Eden, and Mrs. Juliette Gammel and William MacLeod, Twin Falls. Others attended from Wendell and Jerome.

The reception was held in the parlor of the church. Fran Buhl, Las Vegas, was in charge of the guest book.

A hand crocheted white tablecloth over pink covered the bride's table. The four-tiered wedding cake, decorated with red roses, was topped with three large white bells and lilies of the valley. Red roses surrounding candelabras in a cascading style completed the table decor.

Those assisting with the serving included Mrs. Claude Denton, Albion; Mrs. Hyrum Anderson, Malta; Mrs. Ace Caldwell, Rupert, and Mrs. Jewell Lowery and Mrs. Horace Heevers, both Heyburn, Carol Caine, Durango, Colo., and Mrs. Clifford Larsen, Paul, displayed the gifts.

The bride changed to a white crepe suit for her wedding trip. She wore a red and pink corsage from her bridal bouquet.

For the summer, the couple will reside in Baker, Ore., and will return to Utah State University, Logan, this fall to resume their studies. The bride is a member of Alpha Omicron Pi and the bridegroom is affiliated with Alpha Gamma Rho.

Special guests were Mrs. Kenneth Welche, Afton, Okla., grandmother of bride, and Mrs. Grand Reed and children, Oklahoma City, Okla.

with cascading red and pink roses.

Mrs. David Reed, aunt of the bride, was matron of honor. She wore a pink lace sheath gown styled with long sleeves. She carried a fan bouquet of red and pink carnations.

Bridesmaids were Mrs. Dwaine Wright, Idaho Falls; Mrs. Joni Lynn Burley; Cheryl Jordan, both Latah City, and Susan Larson and Elizabeth Ann Muñoz, both Paul. They wore pink lace over taffeta sleeveless sheath gowns and each carried a pink lace fan of red carnations.

William H. Leavitt, New Hampshire, was best man. Ushers were Donald Thompson, Buhl; Donald Denton, Murtaugh; Douglas A. Kammerath, Montpelier, and Raymond E. Denton, Paul.

Kenny Dave Reed, cousin of the bride, was ring bearer.

The bride's mother chose a lace lace gown with pink accessories. The bridegroom's mother wore a pink lace gown with blue accessories. Each wore a red rose corsage.

The reception was held in the parlor of the church. Fran Buhl, Las Vegas, was in charge of the guest book.

A hand crocheted white tablecloth over pink covered the bride's table. The four-tiered wedding cake, decorated with red roses, was topped with three large white bells and lilies of the valley. Red roses surrounding candelabras in a cascading style completed the table decor.

### Dianne Dunlap, Moore Wed in El Paso Rites

HAGERMAN, June 26 — Mr. and Mrs. Danny W. Moore reside in El Paso, Tex., following their wedding held at 7 p.m. May 15 at the El Paso LDS church, with the Bishop E. L. Redd officiating at the ceremony.

The new Mrs. Moore is the former Dianne Lane Durplin, daughter of Mr. and Mrs. W. N. Lane, El Paso. Moore is the son of E. C. (Dinty) Moore, Hagerman.

The bride was given in marriage by her father before an altar decorated with white gladioli. She chose a champagne beige three-piece suit with small matching hat and carried a white orchid, centered on a white Bible.

Mrs. Randell Ben Vaughn, Jr., was matron of honor. She wore a three-piece emerald green linen suit and carried a rosemary of yellow carnations.

John McGuinness was best man. Uncle Randell Ben Vaughn was usher. Mrs. Calvin Duzett played the traditional wedding piano and was accompanist for Thel Larson, soloist.

A reception was held following the ceremony in the church parlors. Niki Lynn Lane, sister of the bride, was in charge of the guest book. Others assisting with the reception include Mrs. Paul Phillips and Mary Doren.

The bride was graduated from Austin high school, El Paso. She is a graduate of the Presbyterian College, with a bachelor's degree in journalism. She is currently completing her studies at the University of Idaho.

Mrs. Albert Peley, vice president, is acting president following the resignation of Mrs. Max Behr, who is attending summer school.

Mrs. Gundar Riveland reported on the vacation Bible school with an offering of \$21 sent to Alaskan relief by the children.

Mrs. Prudimore announced church services would be held at the Community Methodist church at 9:30 a.m. with a guest minister from California expected to speak. Mrs. Vernon Jeser was a guest.

The July 14 meeting will be held at the home of Mrs. Cecil Bott, 818 Third avenue west. The next regular meeting is Sept. 10.

\* \* \*

### Picnic Held by Shoshone WSCS

SHOSHONE, June 26 — Hostesses for the picnic for the Methodist Woman's Society of Christian Service were Mrs. Elmer Terry and Mrs. William Van Dyke. The picnic was held at the Terry home as the last event of the season for the group.

Mrs. Marvin Pearson conducted the pledge service and announced an executive meeting will be held late in August to plan next year's program.

The next regular meeting is Sept. 10.

### Annual Dinner Slated by Group

GOLDEN, June 26 — Mr. and Mrs. Charles Skinner will observe their golden wedding anniversary from 2 to 5 p.m. Sunday at Masonic temple, Hagerman. All friends are invited to attend. The couple request no gifts.

The Skinners were married in 1914 at Hagerman and have resided in Hagerman valley continually since that time. They have one daughter, Mrs. George Holt, Redondo Beach, Calif., and a step-daughter, Mrs. Kenneth Strickland, Gooding, and five grandchildren.

John McGuinness was best man. Uncle Randell Ben Vaughn was usher. Mrs. Calvin Duzett played the traditional wedding piano and was accompanist for Thel Larson, soloist.

A reception was held following the ceremony in the church parlors. Niki Lynn Lane, sister of the bride, was in charge of the guest book. Others assisting with the reception include Mrs. Paul Phillips and Mary Doren.

The bride was graduated from Austin high school, El Paso. She is a graduate of the Presbyterian College, with a bachelor's degree in journalism. She is currently completing her studies at the University of Idaho.

# Along Fences and Canals

The Idaho Hereford ranch, Gooding, owned by Ernest Field, started the sprinklers on new ground which was taken out of sagebrush this past year. The land is located directly east of the Gooding airport. The entire 40 acres is planted to potatoes. They also have started thinning beets.

Floyd Goss started haying this past week with his new swather. He has been working on his acreage getting ready to plant beans. It has been reported only about 20 per cent of the beans in the Gooding area have been planted.

Jerry Kruse, who farms south of Filer, said late planted beans are responding to the good weather and growth for the past few days has been good.

Ellis Fuller, Salmon tract farmer, reports citizens are using more caution concerning range areas. For while it appeared that the range would turn into a junk pile.

George Denton, Filer area farmer, reports beets hit hard by hail twice are beginning to grow much better than originally believed.

Hurley and Skeem Flying service, Jerome, sprayed sagebrush land on the ranches belonging to Rueben and Art Ward, Elba, last week.

Omar Olkoberry, King Hill, has been baling hay at the Arthur Greer ranch, and Greer reports a good yield.

Leonard Montgomery, King Hill, is baling his hay on his ranch south of town. Other farmers also are baling hay. They have been delayed because of the rains during the past two weeks.

Mr. and Mrs. William Trall moved last week to their new home in Hill City, the former Leonard Anderson stock ranch. The Tralls also have a large ranch here in Pasadena valley operated by Mr. and Mrs. Harold Van Sickle.

Lawrence Hill, Roseworth, says irrigation prospects are brighter this year for area tract farmers. Many Roseworth tract farmers will have crops in the ground by this weekend if good weather continues.

Wesley Pink has employees hoeing melons at his ranch south of King Hill. Working in the melons are Mrs. John Allen, Judy Crockett and Mrs. Lester Hall. J. D. Cardine also has employees hoeing melons at his ranch.

## Dairy Chie Concerned About Diet

WASHINGTON, June 26—Dairy industry leaders are being concerned over the way consumers may react to a new recommendation from the National Academy of Sciences.

The recommendation came recently from the academy's food and nutrition board. That entity group said Americans should reduce their daily intake of calories by about 10 per cent.

The American Dairy Association indicated that it favored results could be a drop in consumption.

The association said an increase of 10 per cent would likely result in a tendency to limit or reduce the use of. The association urged dairy industry leaders to promote food value of milk. The group said this will be necessary to avoid any undue threats to as a source of too many calories.

The new recommendation comes at a time when per capita consumption of milk and dairy products has been declining.

Total American milk consumption increased by one-half one per cent last year. That due, however, to an increase in the nation's population. Per capita consumption in 1963 dropped one per cent from 1962, and further decline is expected.

## Valley Potato Men Named To Committee

SAN FRANCISCO, June 26—The United States department of agriculture's marketing service has announced the appointment of members and alternates to the Idaho-Eastern Oregon Potato committee, as nominated by producers and handlers in the area.

The committee administers the federal marketing order regulating the handling of potatoes grown in Idaho and Malheur county Ore.

The following members and alternates will serve from June 1 through May 31, 1965 include the following Magic Valley residents:

District Three—Joe Houska, Jr. and Edward Tippins, both Hazelton; Dunc Bremser, Filer, and Julius L. Duke, Burley.

Alternates included Rolland Jones and Max Herbold both Rupert in district three.

## Education Is Likely With Program

WASHINGTON, June 26—College education for farm youth got a boost recently through adoption of new loan policies by a number of production credit associations across the country. In the Baltimore area, loan applications can be made by the students themselves, sponsored by financial responsible adults.

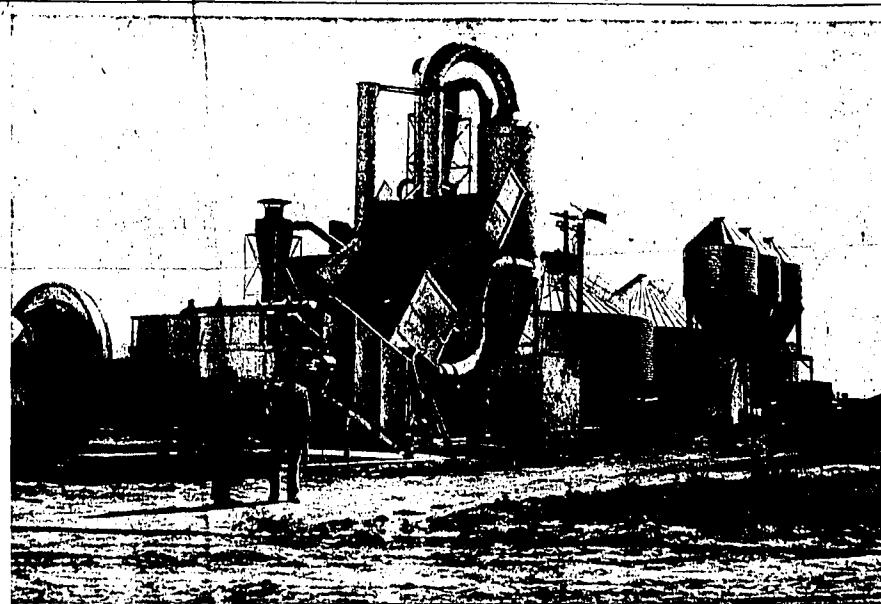

All costs incidental to education, including tuition, room and board, clothes, books, etc., are covered by the loans which may be made regardless of selected courses or future vocations. Production Credit Association of officials advised.

Loan variations among other POA's include seven year repayment plans; a four year plan, with a refinancing option available; and a plan under which 25 per cent of the loan's principal is repaid through revenue from summer work undertaken by the student. PCA officials said they recognized that young people benefit greatly from college education and believed it vitally important for today's youth "the leaders of tomorrow."

## Australian Farmers Encouraged to Seed Record Amount of Wheat Acres

WASHINGTON, June 26 (UPI)—The foreign agricultural service reports Australian farmers are likely to plant a record acreage to their 1964-65 wheat crop.

FAS said the Australians were

READY TO ROLL is the just completed plant of the Idaho Alfalfa Products company, only setup of its kind within a 400-mile radius of Twin Falls. Preliminary operation tests were to be completed this week, with actual operation on a production scale getting under way Monday morning. William Grange, left, sec-

retary-manager of the Twin Falls Chamber of Commerce, and Harry Lemmon, plant owner, discuss the setup during testing. Pellets from green and baled alfalfa will be manufactured at the facility, located east of the city near the sugar company plant. (Times-News photo)

## Alfalfa Plant East of City Set for Start of Operation, Test Work Ends

Newest industry in this section of the state—the Idaho Alfalfa Products company—starts operation at the just completed plant east of Twin Falls and adjacent to the sugar company facility.

The plant is designed to convert green and baled alfalfa hay into pellets and will have a capacity of 70 tons of finished product in a 24-hour period.

This output will either be sacked or in bulk. Facilities now available at the plant will allow storage of 3,000 tons of pellets on the property.

When in full swing, the plant will be one of the biggest con-

sumers of natural gas in the valley. Officials anticipate that 10,000 cubic feet of gas will be used per ton of pellets manufactured, or some 700,000 cubic feet for each daily capacity.

The alfalfa plant is the first industry to be located at the Chamber of Commerce industrial plot. A total of 64 acres, including the five assigned to the new plant, is in the site.

Roads are being rushed to completion and it is expected that the spur of the Union Pacific railroad being constructed will be in use for the alfalfa plant by next week. Additional rails for other contemplated

plants will be completed at an early date.

Construction work on the new business started last March. Lemmon formerly operated a similar plant in Grand Island, Nebr. He has had more than 20 years experience in a business of this type.

Establishment of the plant was made possible through efforts of the Twin Falls Industrial Development corporation.

Through the federal small business administration a loan in the amount of \$187,613 was received and through a sale agreement with Lemmon this will be paid off in a period of 15 years, after which the operator will be sole owner.

William Grange, Chamber of Commerce manager, pointed out

## Price Drops

BOISE, June 26—Idaho dairymen received an average of 84 cents per pound of milk yesterday, the highest in the making of American cheese during April, says statistical reporting service.

This was two cents below April prices a year ago and 11 cents under March prices.

that the initial development area sponsored by the organization was located near South park and took 15 years to fill.

The present acreage was purchased in 1962 and Grange said, "We expect this setup will develop much faster than the original one."

The company will contract for alfalfa standing in the field and it will be cut by self-propelled harvesters owned by the company. Baled hay will be contracted for in the winter months.

farm credit administration money it re-lends to farmers by about three-quarters of per cent.

R. B. Tool, governor of farm credit administration, said the outlook for 1964 depends on the tempo of the general economy. The general economy continues on the up-grade, he said. Interest rates will go up, but have been comparatively stable for about two years.

In 1963, interest paid by the U.S. TIMERS WANT A POR. FAST SELLING RESULT

## Agriculture Official Says Appraisal Of Order Shows Gains Are Fulfilled

WASHINGTON, June 26 (UPI)—An agriculture department official said that a realistic appraisal of federal milk marketing orders showed that they "have filled well the relatively modest aims that have been set for them."

Assistant Secretary of Agriculture George L. Mehren discussed the role of milk marketing orders at the annual meeting of federal milk market administrators in Flushing, N. Y.

Milk marketing orders set up under the agricultural marketing agreements act of 1937, are control mechanisms that are strictly limited by law, Mehren said.

"They do not control production, restrict entry into any market nor guarantee a market to any producer," Mehren said. "In fact, they set resale prices or establish fair trade practices at the retail level."

"The basic control, as far as milk is concerned, is the establishment of minimum prices which all handlers shall pay to producers and which are based on prevailing conditions of supply and demand."

Mehren said the milk order program "can never be all things to all men." If an attempt were made to make it so, he said, "it would soon become an all-encompassing straight jacket on the market."

with which to cure the ills of the dairy industry."

Mehren summed up his review of the milk marketing order situation with these words:

"The genius of the milk order program has been that it has not been limited to a specific regulatory and administrative service that assures equality of opportunity and flexibility of choice and adaptation, but has never yet slipped into hampering rigidities."

In 1963, interest paid by the

## Interest for Farm Credit To Increase

WASHINGTON, June 26 (UPI)—A farm credit official says interest rates may continue to increase this year.

Any such move would continue a trend which began in late 1962 after interest rates had been comparatively stable for about two years.

In 1963, interest paid by the

GRASSHOPPER CONTROL for southern Twin Falls county is discussed by Keith Evans, Idaho manager, plant pest control division, left, and Ora Jones, chairman, Twin Falls grasshopper control committee. A meeting was held Tuesday night in Hollister to form the committee. (Times-News photo)

## Grasshopper Control Committee Is Established for Twin Falls County

HOLLISTER, June 26—A committee to control grasshoppers was organized here Tuesday night at the Grange hall. Ora Jones was named chairman of the newly formed group.

The meeting was called as area farmers could hear Keith Evans explain the procedure for establishing a grasshopper control. Evans is the Idaho manager, plant pest control division, entomology research service. The committee has been established that control needed. The response from the farmers indicated most of the farmers attending the meeting were in favor of a control measure.

According to Evans, the chemicals which will be used will be technical malathion" at the rate of one-half pint per acre. In private rangeland the plan calls for the farmer to pay third, the state on-third and federal government the final.

In public domain the division care of the spraying. This

arm Credit chief Cites loan Trends

AMERICAN BEACH, June 26—Farmers and their cooperatives, the year ending June 30, will have borrowed more than six million dollars from their farm and operated farm system.

A prediction was made here by Robert B. Tool, governor, credit administration, Washington, at a meeting of directors and managers of the 71 cotton credit associations in West and South Carolina, Georgia, and Florida.

In the last decade, farmers and their cooperatives have trebled their borrowings on the cooperative farm credit," Governor Tool pointed out. "This is accounted for not only by larger loans but by the fact that a larger number of farmers and their cooperatives are using the system, even though the number of farmers and their cooperatives is decreasing."

Governor Tool predicted that trends will continue. "I believe farmers and cooperatives will rely increasingly on their own farm system in the decade to come in order to meet their rapidly expanding credit needs."

He said that more than 835,000 farmers are members of production credit associations throughout the country, more than 300,000 are using loans from federal land bank associations and nearly 3,000 marketing, purchasing and servicing cooperatives are borrowing from banks for cooperatives.

Some 510 lambs were sold and averaged 92 pounds. Ninety per cent of the lambs sold for \$21.65 and the remainder sold for \$21. John Clay and company, Ogden, was the successful bidder. (Times-News photo)

## Farm Advisory Unit Calls for Crash Non-Chemical Pest Control Program

WASHINGTON, June 26 (UPI)—An agriculture department advisory committee has called for a crash program of research on non-chemical pest controls. The committee added, however, that American farmers will have to continue the use of chemical pesticides for the foreseeable future. The group said in a statement that consumers cannot get a low-cost, high-quality food supply unless farmers make proper use of chemicals to control insects, weeds, and diseases. The advisory committee said that while the use of chemicals continues, research workers should put more emphasis on non-chemical controls.

These include so-called biological controls in which insects or other bugs are killed off by diseases or chemicals. Insect controls include chemicals in which pests are lured to their death in traps by attractant materials. There also is a system in which insect populations are eliminated by the release of sterilized males.

The research advisory committee's report also urged support for an immediate increase in research on smocking and health. The report said research planning should give special attention to studies on the protection of crops and livestock, on soil and water management, and on research to help improve the economy of low-income rural families.

In addition, the advisory group urged high priority for research on reducing cotton production costs, on finding new uses for farm products, and on reducing the cost of marketing agricultural products.

The advisory committee's report was released following the group's regular quarterly meeting in Washington. The committee includes farmers and ranchers, educators, representatives of processors and retailers, and state and private research organizations.

## Secretary Freeman Predicts Imports Of Beef, Veal Will Drop 25 Per Cent

WASHINGTON, June 26 (UPI)—Agriculture Secretary Orville L. Freeman predicts beef and veal imports into the United States during 1964 will be down about 25 per cent from the 1.7 billion

pounds shipped into this country in 1963.

Previous estimates of beef and veal imports had indicated the reduction would be about 20 per cent below the 1963 shipments from abroad.

Freeman said the imports would be at about the five-year 1959-63 average. This is the level of beef and veal imports advocated by many groups in the cattle industry.

Colling cattle market prices. The program was started in the face of some congressional criticism of the amount of beef that was being imported from other countries.

The effect of beef imports on

our fed cattle prices is small and indirect," Freeman said.

"The effect of increased supplies from our own feedlots last year far outstrips the effect of increased imports."

He said beef exporting countries have recognized the commercial possibilities in the European market and "have moved to fill that need to the mutual advantage of all countries concerned."

One of the appealing things about soil conservation work in Twin Falls county is the activity of the Twin Falls soil conservation district. Directors supervise the activity of the district and keep track of district equipment. In addition there is technical assistance available throughout the soil conservation service. Bozkurt feels that this situation is the answer for many of Turkey's problems in agriculture.

"Farm cooperation is important. We have tried some cooperative projects in Turkey—some have failed and some have

been moderately successful," he said. Some 80 per cent of the Turkish people are involved in farming of some sort. A program to generate new industry on the farm is needed to free many civilians for other types of employment.

Bozkurt likes Americans. "They are quite frank in their opinions and ideas," he said. Farmers are pretty much the same all over the world, says Bozkurt. In Turkey the more vocal people come from rural areas.

His family adjusted quite well to living in Logan. According to Bozkurt's son, Logan is the United States and the rest of the country is something else. His son speaks a mixture of both Turkish and American.

During the next few weeks the Bozkurt family will get an opportunity to see much of the United States and the rest of the country is something else. His son speaks a mixture of both Turkish and American.

He doesn't quite know what his assignment will be when he returns to Turkey, but according to Bozkurt, he is committed to it for several more years.

The visitor didn't get to view all the irrigation practices he wanted to because of the weather.

Both foliage and root absorption contribute to the plant kill.

PICTORIAL ACTIVITIES of the Twin Falls soil conservation district are studied by Kaya Bozkurt, agricultural engineer from

Turkey. Bozkurt spent several weeks in Twin Falls county gaining field experience in soil conservation work. (Times-News photo)

er. Farmers simply didn't have one thing in common to irrigate. The southern Idaho a native brush that is hard to farm and the Turkish farmer kill off and plow under.

## Turkish Agricultural Engineer Tours Magic Valley Area to See Irrigation

For the past couple of weeks a young Turkish agricultural engineer has been observing farming methods in Twin Falls county, principally in the area of soil conservation. He is Kaya Bozkurt, Izmir, Turkey.

Bozkurt is a graduate of the University of Ankara and works for the Turkish soil conservation service.

"Our irrigation delivery system and canals are just as good as any found in the world. The difference is what happens when the water is diverted from the canal to the individual farmer. Here the American farmers outshine many. This technique we must learn," said Bozkurt.

Bozkurt points out that most of the farms in Turkey are small, about 20 acres in size. There are soil problems in many areas particularly along the coast. He noted that Turkey is located on about the same parallel from the equator as much of Idaho.

"We have our mountain and barren regions," he said.

Bozkurt likes one aspect of the farmer-government relation in the United States and that is the ACP program where the government matches what the farmer puts up for improvements on the farm. The 50-50 basis would be a little steep for the Turkish farm and Bozkurt feels that 70-30 or 80-20 would be more reasonable.

In recent years the trend in Turkish farming has been to family sized units. Land is divided into "unit sized" acreages.

Mechanization has been slow and for the average small Turkish farmer ownership of a large tractor is not necessary. Several smaller tractors would be more ideal.

One of the appealing things about soil conservation work in Twin Falls county is the activity of the Twin Falls soil conservation district. Directors supervise the activity of the district and keep track of district equipment.

In addition there is technical assistance available throughout the soil conservation service. Bozkurt feels that this situation is the answer for many of Turkey's problems in agriculture.

"Farm cooperation is important. We have tried some cooperative projects in Turkey—some have failed and some have

been moderately successful," he said. Some 80 per cent of the Turkish people are involved in farming of some sort. A program to generate new industry on the farm is needed to free many civilians for other types of employment.

Bozkurt likes Americans. "They are quite frank in their opinions and ideas," he said. Farmers are pretty much the same all over the world, says Bozkurt. In Turkey the more vocal people come from rural areas.

His family adjusted quite well to living in Logan. According to Bozkurt's son, Logan is the United States and the rest of the country is something else. His son speaks a mixture of both Turkish and American.

During the next few weeks the Bozkurt family will get an opportunity to see much of the United States. His tour of field duty is over in southern Idaho. He will visit Spokane. From there he will journey to California, Arizona, Texas, Oklahoma and Iowa before returning to USU for one more quarter of schooling.

He doesn't quite know what his assignment will be when he returns to Turkey, but according to Bozkurt, he is committed to it for several more years.

The visitor didn't get to view all the irrigation practices he wanted to because of the weather.

## Changes Are Proposed to Aid Industry

WASHINGTON, June 26 (UPI) — Cattle industry spokesmen will urge the agriculture department next week to help cut beef production by changing its beef grading rules.

The proposed change would allow younger cattle to qualify for the "choice" grade without as much marbling as required at present.

Marbling refers to streaks of fat running through lean portions of beef. It is produced by feeding cattle on grain.

Officials of the American National Cattlemen's Association say many young cattle now produce beef tender enough to be classed as "choice" at comparatively light weights. The carcasses, however, cannot be graded as "choice" because they do not have enough marbling.

To get the cattle into the "choice" grade, which is the most popular consumer grade, the association says producers have to feed the animals to heavier weights.

The cattlemen's association says that if the marbling requirement is modified, many producers could market their cattle at lighter weights.

This would reduce the total poundage of beef produced at a time when heavy supplies have been keeping prices at low levels.

STATE CHAMPIONS in dairy cattle judging is the team from Kimberly high school Future Farmers of America chapter. From left are John Hamby, Jerry Scott and Pat Dickard. The team will

## Massive Irrigation Project Could Alter Economy of Navajo Tribal Life

PARMINGTOM, N.M., June 26 — A step toward a possible gradual change in the basic economy of the Navajo Indian tribe, the nation's largest, was taken recently with the beginning of the first phase of a massive irrigation project.

Start of the \$25-million-dollar Navajo irrigation project, a subsidiary of the upper Colorado river storage project, marks the realization of a dream for many Navajo leaders and government Indian workers.

And in addition, the folks of the San Juan basin look forward to the 14-odd years of construction as a highly welcome stabilizer for the area's economy.

The project is only the first of many.

Before it is over, there will be a labyrinth of canals which will carry water over 100 square miles of what now is a vast wasteland.

Water will reach the first of the proposed 1,000 "farms" in about five years. The first lands

to be irrigated will amount to about 2,000 acres, according to Gerald B. Keesee of the bureau of Indian affairs.

Eventually 110,000 acres will be under irrigation from the project.

The irrigation project also will include the installation of 10 dams.

Start of the \$25-million-dollar Navajo irrigation project, a subsidiary of the upper Colorado river storage project, marks the realization of a dream for many Navajo leaders and government Indian workers.

Only Indians can utilize water from the project, Keesee said.

No great amount of truck farming, wheat, or other commodities is expected as the 10,000-acre area per year come under irrigation between 1970 and 1980.

Instead, Keesee and other BIA officials think, the Navajo will

## University Probers Study Results of Dairy Testing

UNIVERSITY OF IDAHO, Moscow, June 26 — Dairy herd selection programs give a great deal of emphasis to conformation or type. Most Idaho dairymen accept type ratings as an indication of an animal's ability as a milk producer. Improved type has attained economic value and is held in high esteem by dairymen.

Selection has gone beyond overall type rating alone. Animals are often selected which are believed to transmit certain desirable features such as straight legs, level rumps, large ears or desirable udder. What is the actual value of these type components and what age can they be recognized?

The University of Idaho began a program of evaluating type in mature dairy animals in the mid-1940s and later added immature animals to the study. Dairy scientists Johnson and Ross are currently publishing the results of their findings as a research bulletin. Here, in brief, are some of their conclusions:

## Most Lincoln Farmers Aid With Control

STOUGHTON, June 26 — Four of Lincoln county farms above only about 10 of the 135 farms inspected and not participating in the county weed control program, reports Wayne Hickman, weed supervisor.

Commissioners Burrell Williams, W. E. Holton and C. R. Chatfield made the tour with Hickman.

Though this is a good percentage, 100 per cent cooperation is required, he said.

The supervisor and commissioners expressed the hope that farmers not participating in the program will do so before the next tour, otherwise the county may take action to comply with the weed control law passed.

## West Pakistan Farmers Are Making Pastures in Desert

KARACHI, June 26 (UPI) — West Pakistan farmers are turning 130 million acres of arid wasteland into a virtual sea of grass for cattle grazing with a simple, inexpensive technique called "water spreading."

Farmers at first doubted that their bone-dry land, pock-marked by tufts of brown grass, could become green pastureland for the hungry, scrawny cattle, of Pakistan.

Their doubts were dispelled when they saw the results of water spreading conducted on a 3,000-acre area of the Ruk Miran section of the Dera Ismail Khan district, about 800 miles north of here.

The venture was sponsored jointly by the Pakistan forest department and the U.S. agency for international development.

Water spreading is a simple, inexpensive method of holding back and storing runoff flood water by a system of small dams and dykes. The stored water slowly filters into the soil and spreads a rich silt which nourishes starting grass roots.

The test area near the Sulaiman hills was typical of land in West Pakistan, most of which is a flat, arid plain where flood waters pass in well-defined channels.

At present most of the plains become pastures only when rare cloudbursts cause floods.

When the initial survey was completed, French and range of

fer Muhammad Akram Kurd observed the technique with Union Council Chairman Ghulam Haas.

The council agreed to provide the necessary labor at nominal wages. They quickly built more than 200 small dams and dikes designed to store flood water and spread it over adjoining land. Construction costs were only about \$4,000.

The surrounding 900 acres soon became rich pastureland when the waters of a medium flood were channeled, spreading rich silt which fed the flattened grass roots.

The native grass of the area, salsphorus, grew 30 inches high. The grass, which makes an especially fine hay, is

relished by livestock, which both stalks and leaves.

Last fall, the villagers added an extra one million pounds of hay because of water spreading technique, cash value of that extra hay was valued at about \$10,000 per capita income is about a year.

USAID officials term the project a "minor miracle." They say it is a good example of what can be accomplished when Pakistan's 120,000,000 people and labor work as a team on development projects.

As one American official says, however: "The rule of USAID's project was that of a catalyst. It was the Union Council and the people of the village who actually helped themselves."

## Southern Idaho Production Credit Association announces

30th

Birthdays

Anniversary

We salute the many Magic Valley Farmers and Ranchers who have made possible the wonderful growth and progress of this organization.

S.I.P.C.A. was organized on January 5th, 1934, with their first office located in the Fidelity Bank Building, and 6 regular employees.

Today we are pleased to announce that we have 3 offices serving the eight counties of Magic Valley. We own our own buildings, with ample parking facilities at each of these locations . . . Twin Falls, Burley and Gooding.

Original P.C.A. Capital was \$225,000.00 . . . we are happy to report that as of May 31st, this year (1964) capital and Surplus of \$2,985,266.00 all owned by 2,100 Magic Valley Farmer Members.

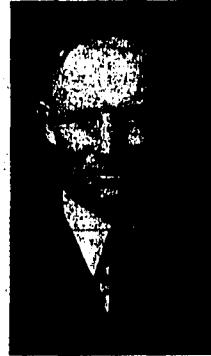

We now have 25 full time employees, which together with the members of our Board of Directors have a combined total of over 346 years of service to the organization.

The total amount of money loaned to Magic Valley Farmers and Ranchers over these 30 years as of May 31st—\$325,000,000.00.

Presenting the members of our present official board.

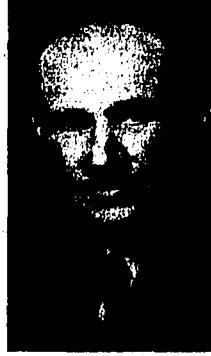

George L. Watt, Buhl, President. Over 29 years as director. Also Vice Chairman of the District Term Credit Board, Spokane, Wash.

James Scheid, Jerome. Director for over 16 years.

Everett A. Campbell, Bellevue. Director for over 11 years.

Manning Patterson, Gooding. Appointed this year to fill the 1964 term of the late Elmer Nelson.

Elmer Nelson, Wendell. Deceased. Mr. Nelson had served for over 22 continuous years as director.

A. L. Hanks, Vice President, Burley. 30 years continuous service as director, ever since founded in 1934.

Earl Stansell, Twin Falls. General Manager of the S.I.P.C.A. with 22 years active service.

Presenting the personnel of our Central Office, located at 246 3rd Ave. East, Twin Falls. Shown left to right: Russell E. Smedley, Asst. Treasurer, 3 years. Helen Ritchie, Asst. Treasurer, 20 years. J. E. Freeman, Field Representative, 6 years. Dorothy Swope, Senior Clerk, 17 years. Lawrence W. Lickley, Field Representative, 2 years. Thelma Wright, Asst. Secretary, 25 years. Rex D. Gardner, Senior Field Representative, 8 years. Marjorie Derst, Bookkeeper, 12 years. Robert W. Wright, Field Representative, 15 years. Stanley H. Walters, Field Representative, 5 years. Lynn Stoker, Bookkeeper.

John R. Martin, Twin Falls. Assistant General Manager, with 12 years service.

Gooding office personnel. Left to right: Seated, Nine M. Krtli, Junior Clerk, 1 year. Verna Albertson, Clerk, 7 years. Standing left to right: Kenneth E. Ruby, Inspector, 5 years. Walter C. Nelson, Inspector, 1 year. Lewis H. Canine, Field Representative, 8 years. Tom Wokorsen, Fairfield, Inspector, 22 years.

Robert W. Stuart, Gooding Branch Manager, Gooding Office, 9 years.

Burley office personnel, left to right: Lowell C. Hunt, Field Representative, 8 years. Walter C. Povlsen, Inspector, 4 years. Juanita C. Keaton, Senior Clerk, 6 years. Bernice Booth, Assistant Secretary, 15 years.

REMEMBER S.I.P.C.A. is a permanent source of agricultural Credit provided from private money through an organization owned and controlled by Magic Valley Farmers and Ranchers. "Growing bigger to serve you better."

**TWIN FALLS** **BURLEY** **GOODING**

# Geiberger Fires 7-Under-Par to Take Open Lead

CLEVELAND, June 26 (AP)—Smiling Al Geiberger, who said he hadn't been playing too well, bluffed six of the last 10 holes Thursday for a 34-30—64 to take the first-round lead in the \$100,000 Cleveland open golf tournament. Despite his heroics—his card showed 10 threes—he was able to take only one one-stroke edge, however, as the field of 149 professionals and 10 amateurs practically wrecked the 6,821-yard, par 71 Highland park municipal course.

The 26-year-old Californian knocked Tony Lema out of the lead after the Chipping Kid had scored a 65 and later, big George Bayer came into play. Bayer came into play.

POCATELLO, June 26 (AP)—Helen Tremper, Missoula, Mont., the defending champion, and three Idaho women moved into the semi-finals of the Idaho women's amateur golf championships Thursday with second round victories. Those still in the running for the crown are Mrs. Tremper, Virginia Undhjem, Twin Falls; Barbara Smith, Boise, and Sorenson, Burley. Mrs. Tremper defeated Shirley Straughn, Twin Falls, 7 and 5 to loom even more of a favorite to repeat her victory of last year.

Mrs. Sorenson defeated Chloe Martin, Idaho Falls, 1 up, Mrs. Undhjem, 4 and 2, Poocatello's Marguerite Polster, 7 and 6, and Barbara Smith defeated Fay White, Salt Lake City, 2 and 1.

Third flight—Lucille Ahman, Twin Falls, defeated Merle Johnson, Poocatello, 1 up.

Fourth flight—consolation—Bertie Lance, Twin Falls, 3 and 2, and Mrs. John Detweller, Twin Falls, drew a bye.

Fifth flight—consolation—Mary Kuhn, Twin Falls, defeated Edna Service, Poocatello, 3 and 2.

Sixth flight—Grace Cavigli, Twin Falls, defeated Sally Hill, Poocatello, 1 up.

SEATTLE, June 26 (AP)—Ken Boyer doubled home runs in the eighth inning, giving the St. Louis Cardinals a 4-2 victory over the Houston Colts Thursday.

Boyer used a 50-foot birdie blast from a trap on the first hole as a springboard to his great round, while Geiberger's blazing putter gave him the edge.

He three putted from 35 feet on the eighth hole for his only bogey, but sank birdie putts ranging from 2 1/2 to 40 feet as he overcame the Houston Colts Thursday.

More than 80 of the classy field were under par, setting the stage for a down to the wire fight for the \$20,000 top prize.

Billy Casper, George Archer, Ray Floyd and Harold Knecht were tied at 66. Defending champion Arnold Palmer was in an eight-way tie at 67, and Jack Nicklaus was in a 10-way tie at 68.

The 68 bracket included such standouts as Mike Souchik, Julius Boros, Gary Player, Bob Charles, Doug Sanders and Ohio amateur champion, Bob Bourne.

The field, dominated, the course to such an extent that only one player, amateur Bob Coon, Jr., Galesburg, Ill., failed to break 68 and he hit that mark on the nose.

Player, the classy South African, said "this is probably the easiest course I've ever played and anyone who is putting well should be able to hit around 68."

However, Gary used 35 putts to finish with a 68. He played with Lema and said he was inside Tony on practically every green, but that Lema was "putting them in from everywhere."

HCDBE WINNS

GREENSBORO, N.C., June 26 (AP)—Standford's No. 1 seeded Julio Heldman and second-ranked Jane Albert scored easy victories Thursday to move into Friday's quarter-finals of the Women's National collegiate tennis tournament.

Consecutive third inning home runs by Ron Hansen, Tom McCraw and Gerry Vickery powered the White Sox victory. Eddie Banks homered for the Cubs and Floyd Robinson also connected for the White Sox.

The crowd largest in the history of the park overflowed onto the field with some 2,500 spectators ringing the warning track from the right field foul line to center field. It was the first time in 40 years that fans were permitted to watch a game on the field at Comiskey park.

## Two Magic Valley Women Gain Semi-Finals of State Tourney

POCATELLO, June 26 (AP)—Helen Tremper, Missoula, Mont., the defending champion, and three Idaho women moved into the semi-finals of the Idaho women's amateur golf championships Thursday with second round victories. Those still in the running for the crown are Mrs. Tremper, Virginia Undhjem, Twin Falls; Barbara Smith, Boise, and Sorenson, Burley. Mrs. Tremper defeated Shirley

Straughn, Twin Falls, 7 and 5 to loom even more of a favorite to repeat her victory of last year.

Mrs. Sorenson defeated Chloe Martin, Idaho Falls, 1 up, Mrs. Undhjem, 4 and 2, Poocatello's Marguerite Polster, 7 and 6, and Barbara Smith defeated Fay White, Salt Lake City, 2 and 1.

The defending champion said she felt better about her putting after the 13 holes she played Thursday. The 10th hole gave me trouble today," she said. "Also, I have had a lot of trouble on number four. That is the hole I haven't parred."

The women play 18 holes Friday and the championship will be decided over the 36 hole route on Saturday.

All competition is being held over the Riverside municipal golf course here. It is women's par of 78 and is 6,264 yards long. Championship flight—Mrs. Kenneth Straughn, Twin Falls, was defeated by Helen Tremper, Marion Mount, and Mrs. Marion Undhjem, Twin Falls, defeated Marguerite Polster, Poocatello, 7 and 6.

## Summer Recreation Events Are Under Way at Gooding

GOODING, June 26—Gooding's summer recreation program is well under way, with both pony and little league baseball teams having played several games, under the management of Chuck Whinnett, coach.

The program begins June 1 and will run until Aug. 15. Boys from 6 to 8 years of age practice softball from 8 a.m. to 10 a.m. each day Monday through Friday at the grade school athletic field.

Pony league play is from 10 a.m. to 11 a.m. each day, and little league players practice from 10 a.m. to 11 a.m. Monday through Friday. The men's softball city league is organized and has just started play.

Swimming lessons at the Gooding municipal pool, under the management of Jack Foreman, will begin Monday. The first session of lessons will be from Monday through July 10.

Gooding students in the swimmer class will have lessons from 9 a.m. to 10 a.m. From 10 a.m. to 11 a.m. Gooding students in the 5 to 7 year class, beginners, advanced beginners and intermediates will have lessons. From 11 a.m. to noon Hagerman and Mills students in all classes will take instructions. Gooding students in the advanced swimmers class will swim from 1 to 2 p.m. and from 5 p.m. to 7 p.m. in the junior lifeguard class will be conducted.

The second session of lessons will begin July 13 and run through July 24. From 10 a.m. to 11 a.m. Fairfield students in all classes will have their lessons. From 11 a.m. to noon Gooding students in the 5 to 7 year class, beginners, advanced beginners and intermediates will have instructions. The adult swimming lessons will be from 1 to 3 p.m. The second session of the junior lifeguard class will be conducted from 1 p.m. to 7 p.m. The third session will be held from July 27 through Aug. 7. From 10 a.m. to 11 a.m. Wendell students in all classes will receive instructions. From 11 a.m. to noon there will be a class for Gooding students in the beginner and intermediate classes. A senior lifeguard class will be

## Ex-Resident Of T. F. Dies In Oregon

CORVALLIS, Ore., June 26—Funeral services for Mrs. Helen H. Bailey, 69, former Twin Falls resident, were held Wednesday afternoon at the Howell-Edwards funeral home, Salem, Ore.

Mrs. Bailey died at her home in Corvallis, Ore., Sunday. She was born Aug. 31, 1894, in Ponca City, Okla. She was graduated from Grinnell University, Grinnell, Ia. She moved to Twin Falls in 1919, where she married to John D. Smith. Mr. Smith died in 1928. She then was married to Claire A. Bailey, July, 1927, in Twin Falls. Mr. Bailey died in 1946.

Mrs. Bailey was executive director of the American Red Cross in Salem, Ore., from 1951 until her retirement in 1961. She then moved to Corvallis.

She was a member of the Episcopal church, past president of the Twin Falls Soroptimist club and a member of the Business and Professional Women's club of Twin Falls.

Survivors include four sons, Lawrence D. Smith, Salem, Alaska; William Z. Smith, Ellensburg, Wash.; Robert E. Bailey, Salem; and Richard H. Bailey, Corvallis; a daughter, Mrs. Shirley E. Welles, Pocatello, Ia., and 13 grandchildren.

## Rev. Martson Is Pastor of New Rupert Church

RUPERT, June 26—The Rev. Howard Martson will be first pastor of the new Calvary Baptist church in Rupert.

The church is located on Third and Main streets, on property purchased by the Twin Falls Tyler Street Baptist church. The Conservative Baptist church will formally open Sunday, with Sunday school at 9:45 a.m., worship services at 11 a.m. and a potluck dinner at 1:15 p.m.

The church will be in fellowship with the Conservative Baptist Association of Idaho and the Conservative Baptist Association of America.

The Rev. Mr. Martson is a graduate of Bob Jones University and Bob Jones seminary. Mrs. Martson served five years as a missionary with Wycliff translators in Brazil. The Martsons have two children.

## Rationed

FATFIELD, June 26—Water rationing will begin Saturday for Fairfield.

The west side will water Saturday and the east side the next day, alternating the rest of the summer.

Better water pressure is maintained by rationing which has been used for the past few years during the peak irrigation months.

No open hoses are allowed, all must be equipped with some kind of a sprinkler.

## Power Agency Tries to Block Construction of Dam

WASHINGTON, June 26 (UPI)—Sheep dam on the Snake river between Idaho and Oregon.

Attorneys for Washington Public Power Supply System, Kennewick, Wash., asked the U.S. court of appeals for the District of Columbia to bar construction of the dam by Pacific Northwest Power company, Portland, Ore.

The agency petitioned the court to reverse an order by the federal power commission granting a license to the private power company for construction of the huge dam.

The public power agency said

the court should order the FPC to grant it priority to the site at which both seek to build the dam.

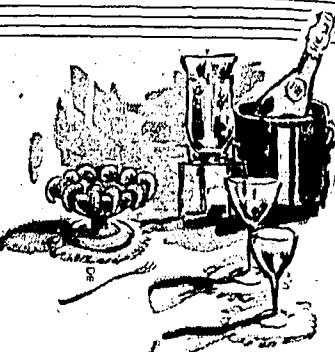

The agency was formed by 15 public power districts of Washington state to build and operate power plants and transmission facilities. PNPP was formed by four private utilities—Montana Power company, Pacific Power and Light company, Portland General Electric company and Washington Water Power company—to build a dam on the Snake river.
